Date: Friday, July 08, 2016 11:03:00 AM

Just talked with Warren. He is on leave today and has some previous obligations next week so can't take the site but said he could fill in until Mike could get there if needed.

Subject: START Mobilized to Houston, Tx (NRC#1152727)

START has been mobilized to follow up on the reported tank failure which released 20-25,000 bbl of IF-380 bunker fuel into secondary containment. At this time, there is no report of release into water and there are four OSROs onsite. The incident happened yesterday but was not reported until today. The facility is near the shoreline and close to Galveston Bay (see attached map). The PDO is in contact with USCG Sector Houston who is also en-route to the facility. OSC McAteer has been notified and ready to respond if needed.
